

# Administrivia

Week 3, CSCW Fall 2015

# Course outline has changed!

- No final (for grads and undergrads) +10% for participation, +10% for projects
- If you prefer a final (the old version of the outline), let me know by the end of this week and we can arrange it (this offer only stands now... )

# Reminders!

- Add photos to Slack and to Wordpress! Pretty please!
- Respond to each other's comments (so much better this week!)
- Be on Slack, post on Slack...
- Are you getting notifications from Slack?
- Workshop topics! (may just have three now instead of four)
- Projects...
- Complete the survey for project teams (missing quite a few... indicate if you filled it out on today's sheet being passed around) DO TODAY
- Requests for group members, use Slack direct messages (cc the proposed members – one message per request)

# Today!

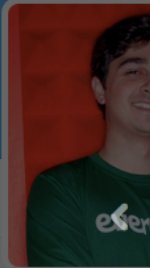

- Slack bots...
- Distance matters (and collocated collaboration is challenging too!)
- Awareness (lightening speed – optional reading)
- Collaboration techniques
- Social media
- Collaborative Visualization (probably next week)

## Next week....

- Topics: Evaluation Frameworks and Empirical Methods
- More readings (posted after class) and a blog post is due!
- Next class will involve some group work! Stay tuned...

Any concerns?

See me! Today or make an appointment....
